

Lab Overview

IBM

Hands On Scenario

Key Persona

Data Steward

- Conduct data inventory and mapping
- Determine personal data classification
- Manage data lifecycle
- Support data data subject rights

Data Discovery & Classification

Data Masking

Data Access Control

Activities:

- Create connection
- Create data protection rule
- Create catalog
- Perform metadata import
- Perform metadata enrichment
- Manage catalog content and its access

IBM Knowledge Catalog

Data Privacy Officer

- Oversee internal compliance
- Liaison with PDPL authorities
- Advise on data processing
- Manage data breach reporting

RoPA

Privacy Assessment

DPIA

Activities:

- Import IKC assets
- Create documentation for RoPA
- Perform Privacy Assessment
- Review DPIA workflow
- Perform DPIA via questionnaire submission

IBM OpenPages

Use Case Sharing

Data Breach Incident and Response Management

Objective: Leverage AI to perform identification of breach incidents and action items

Solution: OpenPages+watsonx

Data Subject Rights

Objective: Simulate request related to personal data from data subject

Solution: OpenPages+Guardium

Consent Management

Objective: Demonstrate consent management using IBM Verify

Solution: IBM Verify
